Reasons for Allowance

The following is an examiner's statement of reasons for allowance: applicant's amendments have obviated the 35 USC 112 issues and placed the application in condition for allowance. In particular, applicant has canceled claims 51 and 58-61 and amended claims 63 and 64 to remove the language that was not deemed to be fully supported in the specification. It is noted that applicant has withdrawn the previous request for interference. It is also noted that the Lesh et al (6,012,457) reference, the patent with which applicant initially sought an interference, specifically recites in Claim 1 the steps of positioning the device along a location where a pulmonary vein extends from the heart and then expanding the circumferential device. The Lesh et al ablation device is a balloon that is expanded once the catheter is within the pulmonary vein orifice, and not a device that is expanded prior placing the device in contact with tissue around a pulmonary vein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (571) 272-4770. The examiner can normally be reached on Mon-Fri from 6am-3pm.
